

The *Genuine* Virutex Laminate Slitter Model: CO15L

Hand held portable unit replaces old T78. Strip cutter for plastic laminates & veneers. Quick and easy to use. Obtain a clean and splinter free cut with no waste. Cutting thickness can be adjusted with a micrometer. A metric and inches scale can be used for easy adjustment of strip width. The new and improved metal bracket made of a special alloy provides stronger hold and stability for the guide fence. The fence is also bolted at both ends for extra strength. The unit is also equipped with a special lock knob assembly for a tighter locking of metal bracket that holds the fence.

Cutting width: 1/2 to 4.33", (12-100 mm). Cutting depth; 0-3/32", (0-2 mm)

Strip cutter for laminates, quick and easy to use. With it you obtain a clean splinterfree cut with no waste.
